NOTE: SF 101 is added to the background fabric to prevent puckering when stitching out the designs on the blocks.

NOTE: Main blocks 1-15 do not need to be placed in the order as shown. They can be stitched together in any order you choose.

NOTE: You can use store bought bias tape or make your own. Length provided is the approximate needed to make a bow, but you can make your tape to the length of your choosing. Approximately 3 Yards needed.

NOTE HUS USERS!!! If you have the 150x240 hoop, please be sure to choose the files labeled as such and NOT 6x10. The 150 x 240 hoop is smaller than the universal 6x10 so you MUST use the correctly labeled files in the HUS folders. For fabric, follow the 6x10 cutting chart.

Approximate Fabric needed for project:

You will have 15 in total.

**STEP 33:** You should have 15 total middle blocks.

**YOU ARE FINISHED  
WITH THE MIDDLE BLOCKS**

## WEDGE CONSTRUCTION

**STEP 34:** You now have all of your blocks stitched.

Decide how you want your skirt laid out, and lay it out as shown. You will be sewing the skirt together in 15 wedges. To keep it organized, pin together your wedges until they are sewn together.

**STEP 35:** Lay out your first wedge as shown.

**STEP 36:** We will start by sewing together the inner block and the middle block.

Flip the middle block up, right side down on inner block.

Pin or clip together.

**STEP 37:** Sew the blocks together, stitching just barely inside the outer most stitching line on the block.

Press open seam.

**STEP 38:** We will now attach the outer block to the previously sewn blocks.

Flip the outer block up, right side down on inner block.

Pin or clip together and sew. Press open seams.

**STEP 39:** Once all blocks are sewn together, your wedge should look as shown.

**STEP 40:** Repeat steps 36-38 to create all the wedges in the tree skirt.

We will now sew the wedges together to form the top of the tree skirt.

Begin with the back right wedge and sew together counter clockwise until all 15 are sewn together.

**STEP 41:** Flip one wedge on top of the other, right side down on top of the other wedge.

Pin or clip together and sew. Press open seams.

**STEP 42:** Repeat steps 40-41 for the remainder of the wedges until all wedges are sew together and look as shown.

 Be sure to leave a gap in the tree skirt, this will be the back side of the tree skirt.

**STEP 43:** Cut your backing according to the sizing in the supply list.

Lay the backing fabric so the right side is up. Center the tree skirt on the backing, right side down, and make sure there is an opening in the backing and hole in the middle as shown.

Pin in place along the edges and along the center.

**STEP 44:** Sew the tree skirt to the backing, sewing just to the inside of the outermost stitch line.

Start at the top of one side of the opening, sew all the way around the bottom and back up to the top of the other side of the tree skirt opening.

The only opening should be the middle small circle.

**STEP 45:** Once the tree skirt is sewn to the backing, trim the excess backing fabric as shown. (should mirror the tree skirt)

*Be sure to clip along the curved edges of seam allowance to allow the edge of the skirt to lay flat once turned right side out*

**STEP 46:** Turn the tree skirt right side out through the center opening.

Make sure to push out the corners and round out the outer blocks.

Press the seams flat.

**STEP 47:** Top stitch the edge of the tree skirt, starting at one side of the opening, all the way around to the other side.

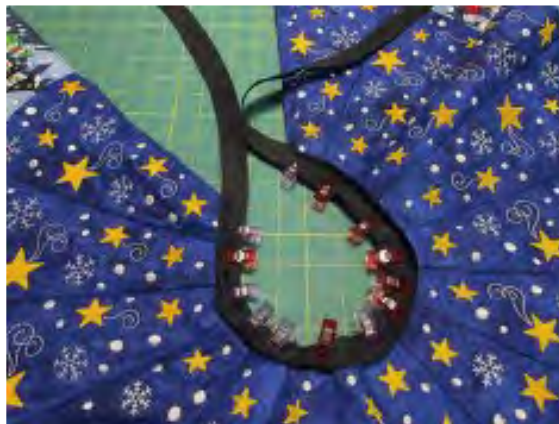

**STEP 48:** Use the stitch in the ditch method to sew each wedge's seam lines to the backing.

**STEP 49:** Place the bias tape on the center of the tree skirt, sandwich the tree skirt between the bias tape.

Pin or clip the bias tape to the tree skirt.

**STEP 50:** Sew the bias tape, about 1/8" from the bottom of the bias tape to the tree skirt.

**CONGRATULATIONS!! YOUR TREE SKIRT IS COMPLETE!**
