About Us:

At Anita Goodesign we have one simple mission: To bring fun and creativity back to embroidery. Our collections are very distinctive and unique compared to other design collections in the market. All of our collections are project based, meaning if we can't think of a project to create with the designs we simply will not produce the collection. All of our CD-ROM's contain a wealth of information consisting of designs in multiple formats, project tutorials, technique tutorials and a free re-sizing program. All of the designs in every collection also coordinate which is extremely important. Each collection is drawn by one artist and digitized by one digitizer. This means all of the designs will have the same quality and consistency. Every design is hand digitized by Steve Wilson, who has personally digitized over 100,000 designs and has over 15 years experience in the embroidery industry. Each of the Anita Goodesign Collections are inspired by current industry trends and can compliment any room in your home. All of the designs in each design collection coordinate and compliment each other and the designs are sized from 3 " x 3" to as large as 8" x 12". Each collection uses as few thread colors as possible and is digitized for use with home and commercial embroidery machines.

About The Owner:

Steve Wilson, is the president and owner of Anita Goodesign, Artbox Digitizing Studio, and the co-owner of Art-Sew-Perfect stock design company. Steve has won over 20 digitizing awards, written over 70 articles on digitizing and embroidery techniques and has produced 18 digitizing "How-To" videos. He has also digitized thousands of designs for the home textile and decorating industries and is bringing that experience and expertise to the Anita Goodesign Home Decor Collections.

Introducing Our **NEW Clubs!**

- *Tired of paying full price for your Embroidery Designs?*
- *Do you enjoy getting the newest embroidery designs available in the market?*
- *We have a solution that's right for you!*
- *Our 4 unique Clubs will help you choose the best option for your embroidery needs!*

Our Diamond Club was created 8 years ago to give our customers new designs every month at a discounted price. The last year has brought many changes at Anita Goodesign including the introduction of our quilting line. We have had feedback from both machine embroiderers wanting more embroidery designs and our customers who make embroidered quilts requesting more quilting designs. So we decided to make some changes, by adding a club for quilting.

If you are a current Diamond Club or Platinum Club member you will continue to receive those designs for the remainder of the year. If you would prefer to have the remainder of your membership converted to Quilting Club designs we can do that as well. Simply email Emily Whitaker at ewhitaker@anita-goodesign.com and she will make sure your next packet is for the Quilting Club. We also have a new club for our customers who want everything, called the VIP Club. Of course no matter which club you are a member of our trade out policy still applies, you can always trade for a quilting design or an embroidery design.

Here are the details on all of the clubs. We hope these changes will allow you to choose a club that will give you more of what you want!

32 Designs total- Blocks Come in 8.5" x 10.5", 8.5" x 8.5", 4.8" x 7.8", and 4.2" x 8.7".

It is a tradition at Anita Goodesign to create a new tile scene every Christmas. This year is no exception and our newest tile scene is Letters to Santa. This is an 8 block tile scene that features a festive mailbox filled with letters. The mailbox is set against a beautiful picket fence background covered in holly with 2 regal cardinals perched on it. This is the perfect Christmas wall hanging for any household. Since the collection only has 8 blocks it is a very easy scene to assemble. Each block has applique in it to keep stitches to a minimum.

Nativity 2012
20 Tiles
in 4 sizes

80 Designs total in the sizes of 8", 8.5", 9", and 9.5".

About 5 years ago we created our first Nativity Tile Scene. Since then we have had multiple requests to create another version. We gave this collection to a different artist to draw. The end result is an entirely different scene using the same subject matter. We used brighter fabrics for this collection and changed the perspective of the drawing to create larger characters and stable. We also wanted the scene to look like it was floating on a background with a flowing border. The end result is amazing!

Thanksgiving Greetings Tile Scene in 4 sizes

32 Designs total. Blocks Come in 6.8" x 10.8", 5.8" x 9.2", 4.8" x 7.8", and 4.2" x 6.7".

This is an 8 block tile scene that features a turkey, soup, wine, cake and a bowl of fruit. Each of the design elements is hand shaded for a painted effect. This is the perfect Thanksgiving wall hanging for any household. Since the collection only has 8 blocks it is a very easy scene to assemble. Each block uses applique to keep stitches to a minimum. We also use our fabric saving technique with this design. None of the fabric you see in the finished project is hooped. Instead we hoop muslin and use all of the visible fabric as applique. You will use half of the normal fabric to complete this project.

PROJECTS

What Are Projects?

These are not “In the Hoop Projects” which limits the size and creativity; they are embroidery designs with a specific finished project in mind. Projects will include a step-by-step tutorial with detailed pictures showing you how to embroider and sew the project from start to finish. We also include tips and tricks along the way to take the guesswork out of any new technique. And we include a detailed “Shopping List” for each project. The other great aspect of this new collection is that you will be able to take “Project” classes at your local Anita Goodesign dealer! These Projects will incorporate embroidery and sewing while teaching you new and interesting techniques. We want to inspire you to take your embroidery to the next level while enjoying what your entire machine has to offer. The embroidery designs are exclusive to the “Project” Series. As always, each CD has multiple designs each in different sizes to accommodate different hoop sizes. Use these designs with the specific project or add them to anything you like!

Reverse-a-Bowl is a clever project that creates a practical and decorative bowl. These are fun and easy to use for "hoop" projects, that only require a few seams to complete! Each side of the bowl is treated as a separate applique. The bowl attaches over all of your raw edges and creates a crisp clean finish. Then you'll use your sewing machine to sew the panels together and create your dimensional bowl. Fill with popcorn, candy, jewelry, or sewing notions!

Shrinky Flowers are not created using standard applique techniques, instead they are created in a heat-shrink process. The first step is to create the fabric by stretching your fabric with Heat N Shrink solution. When activated, the Heat N Shrink shrinks the fabric 20% and creates interesting patterns. Use them on the shirukan fabric as the applique fabric on the your flowers.

Introducing our very first
Premium Collection

“Art Quilts”

This collection happened by accident! We wanted our next Special Edition to be different from all the others in that the designs don't connect to form a larger quilt. We wanted the designs to all be beautiful and stand on their own. So, we decided to design a small art quilt and see where it went. We love art quilts, however, they are very hard to create and include a lot of fabric layering, free motion stitches and shading stitches. We wanted to recreate that look in one hooping, so we did a test and it came out wonderfully. We then said “Now that we have an 8”x12” quilt what are we going to do with it?” Our artist Rachel Woodhouse folded it in half and said “We could make embroidered greeting cards!” What I thought was an odd idea turned into a brilliant one, and we experimented with techniques until it was perfect. The end result is a mini quilt that will fold flat to become a beautiful card! We added an inside design where you can include a note, photo or even one of the included sayings. Who wouldn't cherish a gift like this forever? We also include instructions on how you can hang them alone or in multiples. Now comes the point where we assign the art; both Rachel and Ginny were assigned this collection to draw. I figured between the two of them I would have about a dozen designs to choose from for the final collection. I was wrong, combined they drew and painted 35 breathtaking pieces of art in a wide assortment of subject matters. Instead of breaking up the art into multiple editions, I decided to create a Premium Collection that contains all 35 pieces of art, 2 different insides as well as dozens of sayings. Each of the designs come in 3 sizes, 8”x12”, 7”x11” and 6”x9”. It is the most difficult collection I have ever digitized because each design is done 100% by hand in free motion stitches! Whether you use the designs as cards, frame them or make wall hangings with them they will delight you for years to come.

The Rose

Blocks come in 4 sizes: 4.8", 5.8", 6.8" and 7.8"

The Rose

For our tenth Special Edition we've decided to create something entirely different. Instead of modular blocks that you can rearrange we decided to create one large artistic piece titled "The Rose". Total of 45 blocks and measures 40" x 72" at its largest size. The rose was painted using wide and varied brush strokes for a stylized, artistic look. The style of painting is very similar to the background of our Geisha quilt and Crane tapestry. The beautiful rose was then set upon a folded fabric background. The folded fabric creates the perfect background while maintaining a low stitch count.

This Special Edition is among the lowest stitch counts and fastest to recreate. The entire project uses only 3 fabrics for the background, 3 for the rose and 2 for the leaves. There are also only 7 thread colors so rounding up supplies will not be difficult.

Each Collection Includes
File Formats - ART, PES, HUS, XXX, JEF, EXP, DST, VIP, PFX
Tutorials, Re-sizing program, Catalog and design Color Sheets
