

Tutorials and Color Sheets

Welcome to our newest Vintage Collection titled "Days of the Week, Antiques." These designs may look like your typical redwork designs but they are actually quite different. Each stitch repeats 7 times to mimic hand embroidery thread. The look is quite different and unique! There are seven different main designs signifying each day and a different antique. Each main design comes in two different sizes. We broke each design into smaller elements so the individual girls or saying can be added to any project you desire. We created tea towels for this collection.

There is a tutorial on the following pages that will demonstrate how to create standard tea towels. You can make a tea towel out of linen or a high quality cotton. For this collection we used a natural cotton. For an added vintage touch you can add vintage pieces of fabric or trims to the tea towels.

Creating a tea towel is very easy, the most important part is choosing high quality linen to embroider on.

Start with a piece of linen cut 20" x 32". Embroider the design so that the bottom of the design is about 6" up from the cut edge of the bottom of the linen.

You will be hemming the top and bottom hem edges first. The hem at the top edge is one inch deep with a $\frac{1}{2}$ " turned under. The hem at the bottom edge is two inches deep with a $\frac{1}{2}$ " turned under. Tip: To be able to fold and press accurately, stitch a straight stitch using thread to match your fabric at all fold lines. It will now be easy to press without using a ruler at your ironing board!

Topstitch the hems at the top and bottom using a straight stitch.

Finish the bottom 2 inch deep hem with a decorative hemstitch. Put a wing needle in your machine, size 110 is good for light to medium weight linen. Choose a hem stitch from your decorative stitch menu. You may need to refer to your owner's manual to determine what is a "hemstitch" on your machine. Line up the stitch to sew right on the topstitched line you just sewed, as shown. Using an open toe foot as shown will allow you to easily see to guide your stitching.

Here is a close up of the wing needle stitch completed.

Press a half inch narrow hem on the sides of the tea towel as shown. Topstitch to finish.

Here is a photo of the hem and sides stitched in relation to the embroidery.
